(1) **Year Built:** Is the original date when the property was completed and entered the assessment tax roll.

(2) **Effective Year:** A subjective adjustment to the economic remaining life of the improvement by BC Assessment based on recent renovations. The effective year does not reflect the year in which the renovations occurred. Example, a home with a year built of 1954 and an effective year built of 1977 means that the home was significantly updated to a condition similar to a home built 1977.
